

Nijmegen, Netherlands

Information Bulletin International Indoor Fly In 2017 – Edition 1

Date of the competition

As a small reminder the date is set for 10, 11 and 12 November 2017.

We are flying in the classes F4D, F4E (CO2 and Electric is split), F4F, Pistachio, Kit Scale, F1D, F1M, F1L, F1N, Sainte Formula and Profile Scale.

More detailed information will be available in begin October.

Trimming sessions

A few flyers pointed out that there were some struggles on the Saturday morning with their trim flights. This because of the many F1N flyers using the hall for a long period of time. Of course we want to do something about this and we will make different time blocks during the trimming session on Saturday.

For those who are able to come on Friday, can use this day for trimming flights. In this way we hope that we can use the time on Saturday morning more efficient.

Entry

To make a good timetable it is important to know who are coming, but more important is that we know in which classes they will be flying. The more we know the better we can plan our time during the weekend. Entering can be done by sending us an email (internationalindoorflyin@gmail.com). Also let us know if you will be coming on Friday.

You can also enter by filling out our online entry form. It can be found via the following link: <https://goo.gl/forms/DR4p0GHqV92sXJ1R2> (easier and faster then sending an email)

Glider Scale

We decided to add the class Glider scale to the classes you are able to enter. We will decide later on, on how the judges will judge this class. We will communicate this at a later date. Let us know if you want to compete.

We always want to know your opinion in things we can change, add or do better. So your opinion counts. Just let us know if there is anything we need to think about for the coming edition.

Kind Regards,

Bernard Bruins
Contest Director IIFI 2017
