

**Nijmegen, Netherlands**

**21 and 22 May**

**Jan Massinkhal  
Nijmegen, Netherlands**

Dear flyer,

The date of the third International Indoor Fly In is rapidly getting closer! Here by enclosed you'll find the flying schedule along with other information regarding the contest. Also attached are three maps of the location of the hall.

#### **Registration**

On arrival Saturday please register at the organisation table. Here the flyers will receive an envelope with starting numbers, necessary info and static judging forms. Also this is the opportunity to enter or change the classes you fly or possibly add models for the scale contest. There will also be a briefing for all flyers on Saturday at 10.00 to explain some things and welcome everybody.

#### **Flying Schedule:**

##### **Saturday**

16.30 - 18.30	F1D contest flying.	-

Following the flying will be the prize giving

#### **Static Judging**

The judging of the scale classes will start at 9.00. Tables will be set up for the separate classes. Upon registration you will receive the score sheets for this, please check them and together with the documentation place them under the model at the judges table.

**\* Please note that your model should be at the judges table preferably at 9.00!!! \***

The idea is that all models are at the judges table until 10.00, this way the judges can have a good overall look. Then, if you want to testfly your model you can then take it, but leave your documentation and entry form at the judges table. You can then make your trimming and/or contest flights. When you finish test flying, put the model back at the table. This way everybody has plenty of trimming and flying time available. Note that at the UK Scale Nationals it is done in a similar way.

***Timekeeping***

For all classes the timekeeping will be done by timekeepers provided by the organisation. When you want to make a flight just come to the organization table at the centre of the hall.

***Hall***

We kindly request the flyers to use the respective halves of the hall for flying the different classes. This division of the hall is mainly for the time allocated for trimming. Contest rounds use the entire hall for the class flown at that time. During trimming and contest flying please keep the main floor empty as much as possible so as to not provide hindrance to flights taking place or waiting to start. Also no running in the hall please. Tables and chairs will be provided.

***Prizes***

In all classes a prize will be awarded to the best three flyers. Also a prize is given in the F4F and F4D class to the best junior. The award for the best scale model of Dutch design will receive a trophy (this will be engraved each time and has to be returned) along with a appropriate surprise. For F1D there is the "Icarus" trophy which is engraved with the winners name and should be returned each year.

***How to reach the Jan Massinkhal***

The Jan Massinkhal is easily reached; it is located at the edge of one of the main roads through Nijmegen. When arriving by car please use the three maps with this letter as a reference. The exact address is:

Jan Massinkhal  
Nieuwe Dukenburgseweg 5  
6534 AD Nijmegen

See you May 21 and 22 in Nijmegen!

Kind regards,

Bernard Bruins  
Luis Bautista  
Wout Moerman

Van den Boschstraat 264  
2595 AH Den Haag  
Netherlands
